

Here's What Our Patients Are Saying...

Comments from Pavilion Rehab & Houston Lake Rehab

The overall care was very good. I did not have to wait and my physical therapist was great.

The therapist was extremely knowledgeable.

The personal attention given by the physical therapy staff was impressive.

The receptionist went "above and beyond" to accommodate our schedule.

I liked the one on one time the therapist spent with me.

It was a great experience; the overall staff was very informative and very professional.

I was impressed the most with the friendliness of the staff. If I had any questions, they willingly answered them.

Everyone that I was in contact with, from the time I arrived until the time I left, was very kind, helpful and gracious.

The doctor and physical therapist helped me a lot with my hand because I could not raise my arm at all or put on my shirt, but they helped relieve my pain so that I can do these tasks.
