

Why work at Houston Healthcare...

Andrea Thompson, RN, Emergency Department

“I love the small town atmosphere and personal attention patients receive here. Everyone works so well together...I really feel like I am part of a team. The ability to make a difference in someone’s life is a great feeling. I love the people here at Houston Healthcare.”

Delia, RN, Intensive Care

“I was impressed with the attentive, generous and helpful staff who took care of my family member who was a patient at Houston Healthcare. This positive experience made me want to be a part of the Houston team. I enjoy the challenges and new learning experiences that I encounter daily. Having supportive and motivated co-workers fosters my growth as a professional nurse.”

Chris, RN, Med/Surg

“When people come to the hospital they are at their worst so I have to be at my best. As the days go by and I can see the people start to feel better and as their condition improves, it makes me feel good to know that I was a part of their healing process. But what I really love about my job is having patients and/or their family members come to me and thank me and the people I work with for caring for them or their loved ones. Houston Healthcare has a caring and supportive team that takes a modern technology approach to health care. We treat patients as if they were our own family members. The people I work with and the team work atmosphere that has been created here is why I choose to work at Houston Healthcare.”
